

Please note:

Data was extracted on 3 December 2021 and is subject to change.

The figures for non-camera speeding infringement notices include data from the following devices: hand held, dash mounted and any other non camera detection devices.

The figures for fixed speed camera infringement notices include data from the following devices: stand alone fixed speed cameras, the speed component of fixed red light/speed cameras and trailer mounted speed cameras.

Invalid postcodes have been summarised to unknown

The 'total face value' for infringement notices issued is calculated by using the fine amount multiplied by the number of infringement notices issued. This is not the amount received by Transport and Main Roads (TMR), as TMR does not receive all payments for infringement notices issued, therefore Data Analysis (DA) is unable to provide data on revenue collected.

Number of speeding infringement notices issued from 1 July 2019 to 30 June 2021 (Financial Year 2019-20 to 2020-21) with total face value

Please note:

Data was extracted on 14 December 2021 and is subject to change.

Data Analysis (DA) allows a three month lag for extracting and providing offence data. This allows for completeness of data and time for the offence notice to be forwarded from Queensland Police Service (QPS) to Transport and Main Roads (TMR) for entering into the system. The 3 month lag includes the 28 day period for the alleged offender to pay or respond to the offence notice. Some offence categories will still be understated due to the prolonged time it takes for these matters to be finalised (e.g. Drink Driving offences).
