Note:

- This list is regularly updated. Ensure that current version is used.
- Conditions of registration apply as per Letter and Certificate of Registration.
- At awarding of contact, registration must be current (Refer Clause 1.2 of the *Procedure Manual: Prequalification of Noise Barrier Construction Companies*).
- Registration Levels:
 - Provisional Level:** New Companies which have not previously undertaken works on Transport and Main Roads projects and undertake works to prove their competency. Registration valid for six (6) to twelve (12) months.
 - Level 1:** New and low volume Companies and not mature enough to undertake complex works. Registration valid for twelve (12) months to three (3) years.
 - Level 2:** Existing and large volume companies with satisfactory long-term performance. Registration valid for three (3) years.
- The Registration is given on assessment of Technical Capability and Management Systems.
